

Referencegruppemøde, Teknologisk, 28. oktober 2015

CEN Durability design

JWG TC 104/SC1 – TC 250/SC2

- Udarbejdet et foreløbigt forslag til durability design – to notater:
 - N25 – Durability Exposure Resistance Classes
 - N26 – Exposure resistance classes
-
- Danmark har kommenteret forslaget i et to-siders notat efter en workshop på Teknologisk den 18. november 2014
 - Andre – som Spanien, Finland, Frankrig og Cembureau – har tilsvarende kommenteret
 - Derfor er der oprettet:
CEN/TC 104/SC 01/WG 01 - Exposure Resistance Classes (RC)

Exposure Resistance Classes

- Carbonation Resistance – low/medium/high
 - Chloride Resistance – low/medium/high
 - Freeze/thaw resistance – medium/high
 - Chemical Aggressiveness – medium/high
-
- I praksis står diskussionen omkring Chlorid klasser
 - FT og CA mangler fuldstændigt modeller
 - Er carbonatisering interessant?

Table 5 Exposure resistance classes, definitions, classification standards and deemed to satisfy values for various binder compositions (example, preliminary values)

| Preliminary values | Carbonation resistance class RC | | | | Chloride resistance class RSD | | | Frost resistance class RF | |
|---|---|--------|--------|-------------------|-------------------------------|--------|-------------------|---------------------------|--------|
| | RC20 | RC30 | RC40 | RCX0 ¹ | RSD45 | RSD60 | RSD75 | RF2 | RF10 |
| Definition of class, depth of front after 50 years (mm) | 20 | 30 | 40 | - | 45 | 60 | 75 | | |
| Classification standard | EN xxx | EN xxx | EN xxx | EN xxx | EN yyy | EN yyy | EN yyy | EN zzz | EN zzz |
| Deemed to satisfy | Maximum w/b-ratio b is the sum of cement and additions in the concrete, within the limits defining the cements according to EN 197-1 | | | | | | | | |
| CEM I | 0,55 | 0,60 | 0,65 | 0,90 | NA | NA | 0,45 ² | | |
| CEM II-A | 0,45 | 0,55 | 0,65 | 0,90 | 0,40 | 0,50 | 0,60 | | |
| CEM II-B | 0,40 | 0,50 | 0,60 | 0,75 | 0,40 | 0,50 | 0,60 | | |
| CEM III-A | NA | 0,45 | 0,55 | 0,75 | ? | ? | ? | | |
| CEM III-B | NA | NA | 0,45 | 0,65 | 0,38 | 0,45 | 0,55 | | |
| Minimum binder content (kg/m ³) | 280 | 280 | 280 | 240 | 280 | 280 | 280 | | |

¹ Class RCX0 shall only be allowed in exposure class X0.

² CEM I shall only be used with minimum 4% silica fume

NA means that no deemed to satisfy values are given for that combination of binder and resistance class

N25

Table 6 Minimum cover (recommended values) for the various combinations of exposure classes, exposure resistance classes and design working lives (example, preliminary values for illustration purpose)

N25

| Preliminary values | | Minimum cover for 50, 100 and 200 years design working life, recommended values (preliminary) | | | | | | |
|--------------------|-------------------|---|-------------|-------------|---|-------------|---|-------------|
| Exposure Class | | RC20 (RCH) ² RSD45 (RSDH) | | | RC30 (RCM) ² RSD60 (RSDM) | | RC40 (RCL) ² RSD75 (RSDL) | |
| | (S4) ³ | 50 | 100 | 200(?) | 50 | 100 | 50 | 100 |
| X0 ¹ | (10) | $c_{min,b}$ | $c_{min,b}$ | $c_{min,b}$ | $c_{min,b}$ | $c_{min,b}$ | $c_{min,b}$ | $c_{min,b}$ |
| XC1 | (15) | 10 | 15 | 20 | 10 | 20 | 10 | 20 |
| XC2, | (25) | 15 | 20 | 30 | 20 | 30 | 25 | 35 |
| XC3 | (25) | 15 | 20 | 30 | 20 | 30 | 25 | 35 |
| XC4 | (30) | 15 | 20 | 30 | 20 | 30 | 25 | 35 |
| XD1, | (35) | 15 | 20 | 30 | 20 | 30 | 25 | 35 |
| XS1 | (35) | 15 | 20 | 30 | 20 | 30 | 25 | 35 |
| XD2, | (40) | 45 | 55 | 65 | 55 | 70 | 70 | NA |
| XS2 | (40) | 45 | 55 | 65 | 55 | 70 | 70 | NA |
| XD3 | (45) | 55 | 65 | 75 | 70 | NA | 80 | NA |
| XS3 | (45) | 55 | 65 | 75 | 70 | NA | 80 | NA |

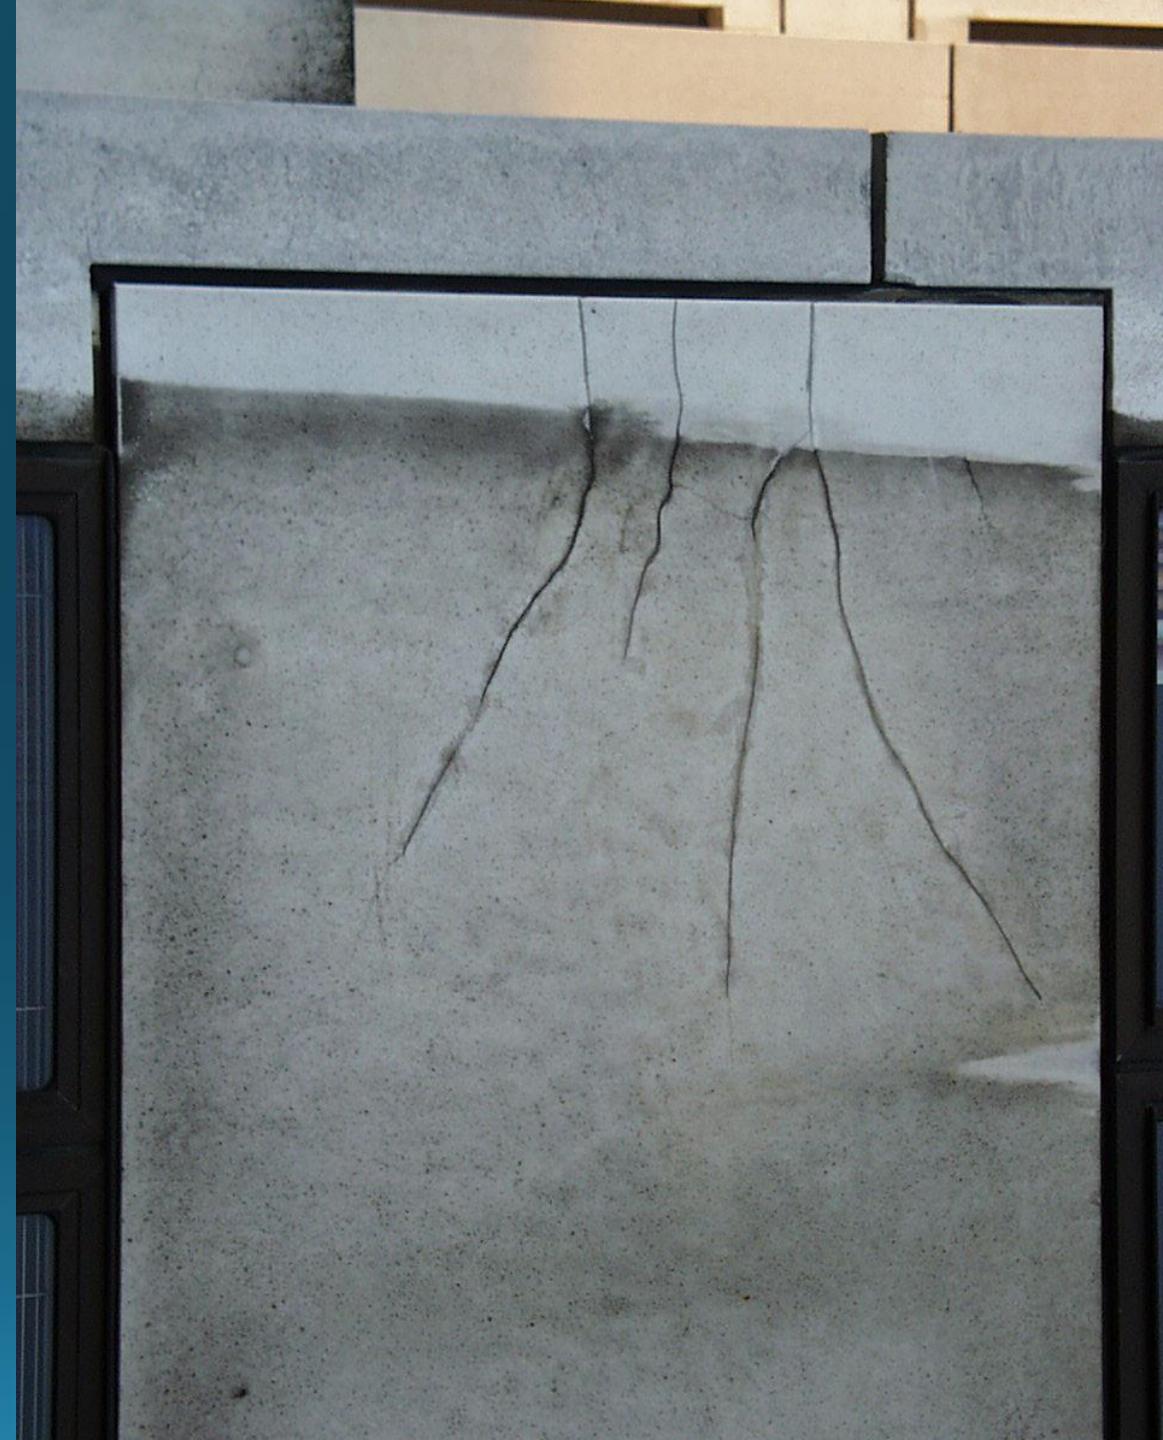

¹ In exposure class X0 concrete in carbonation resistance class RCX0 may be used with a minimum cover of $c_{min,b}$

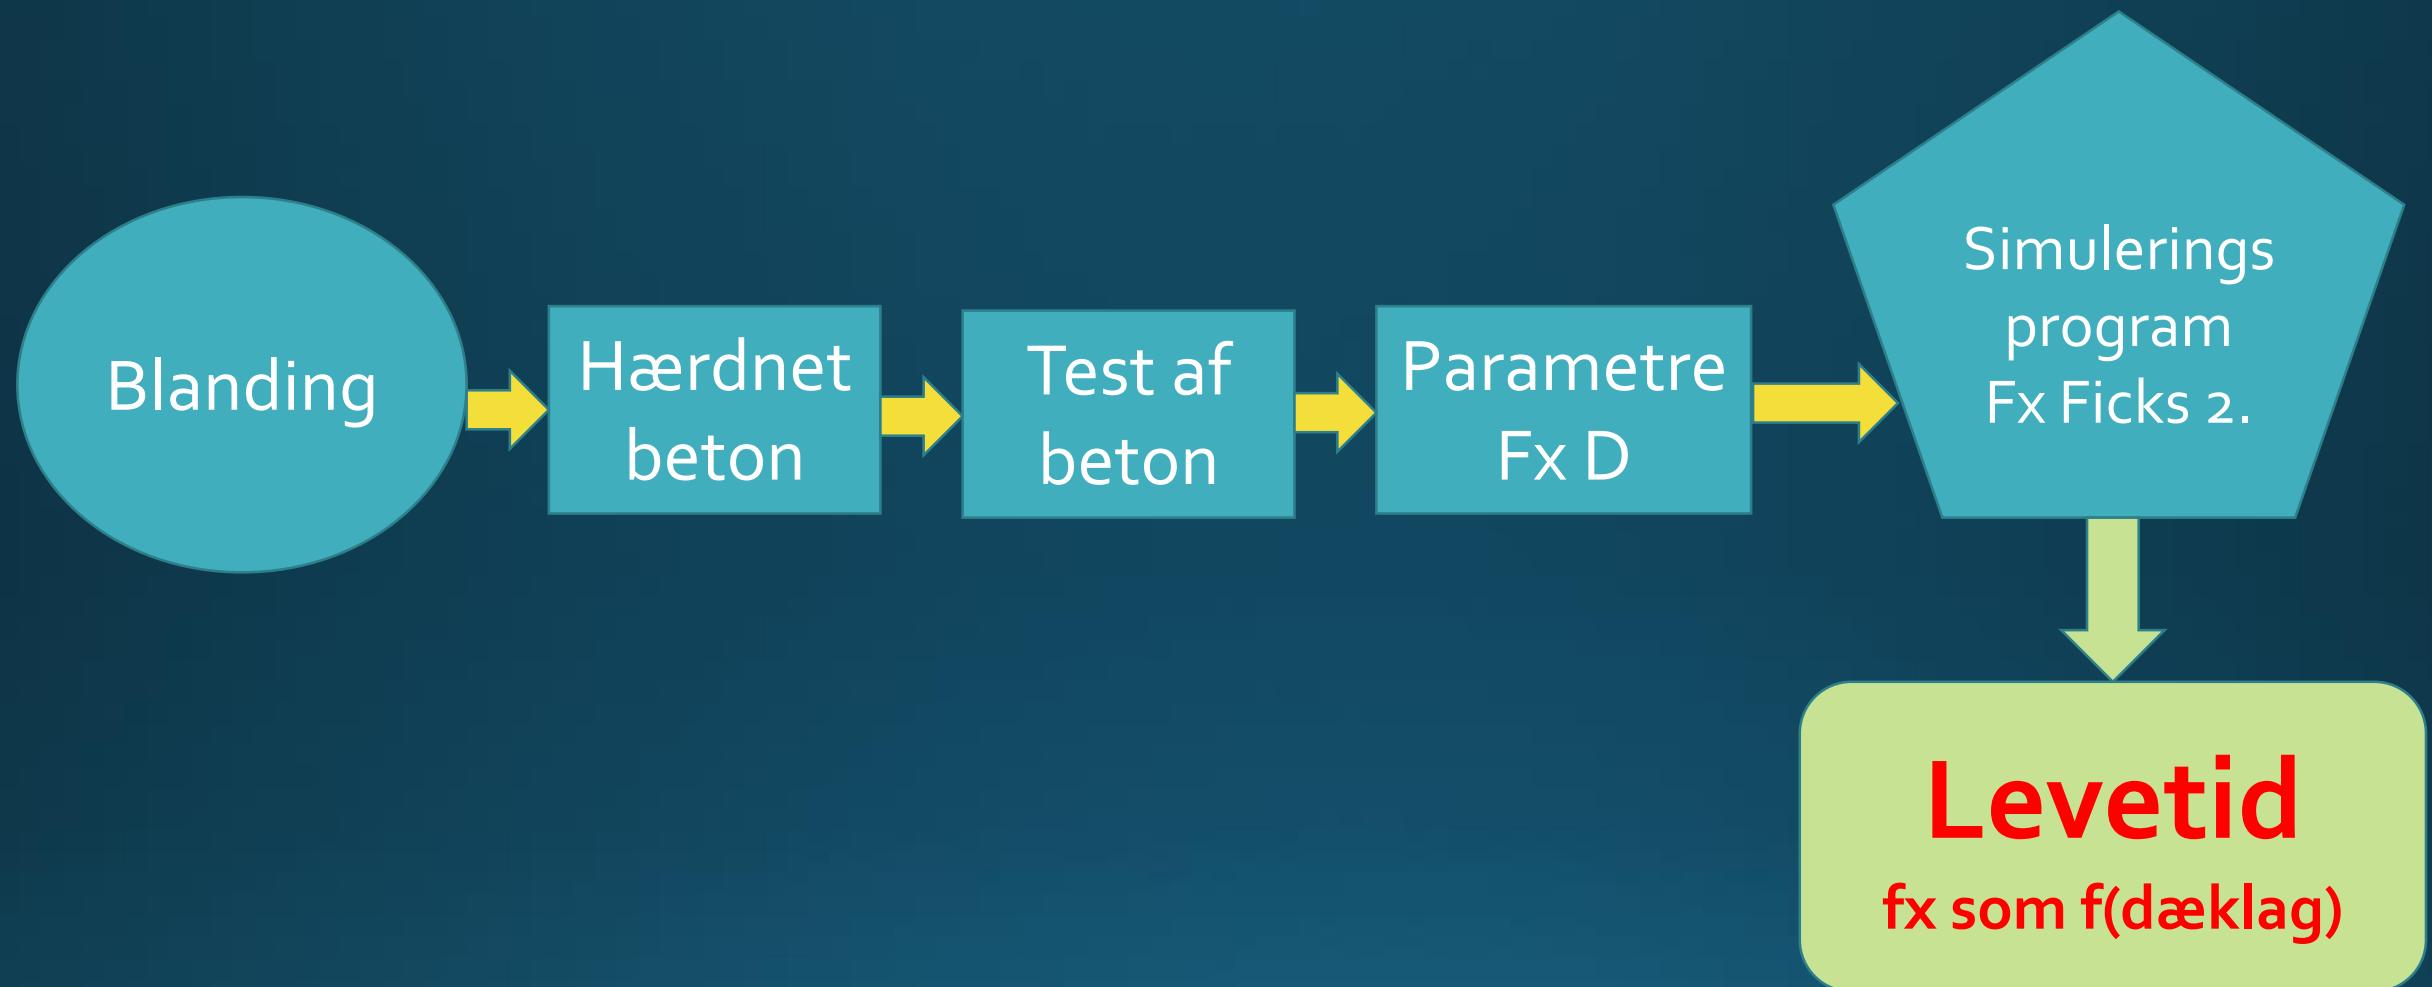

² On the tension side of beams the cover shall be increased by 5mm in RC20 and by 10 mm in RC30 and RC40 for exposure classes XC2, XC3, XC4, XS1 and XD1.

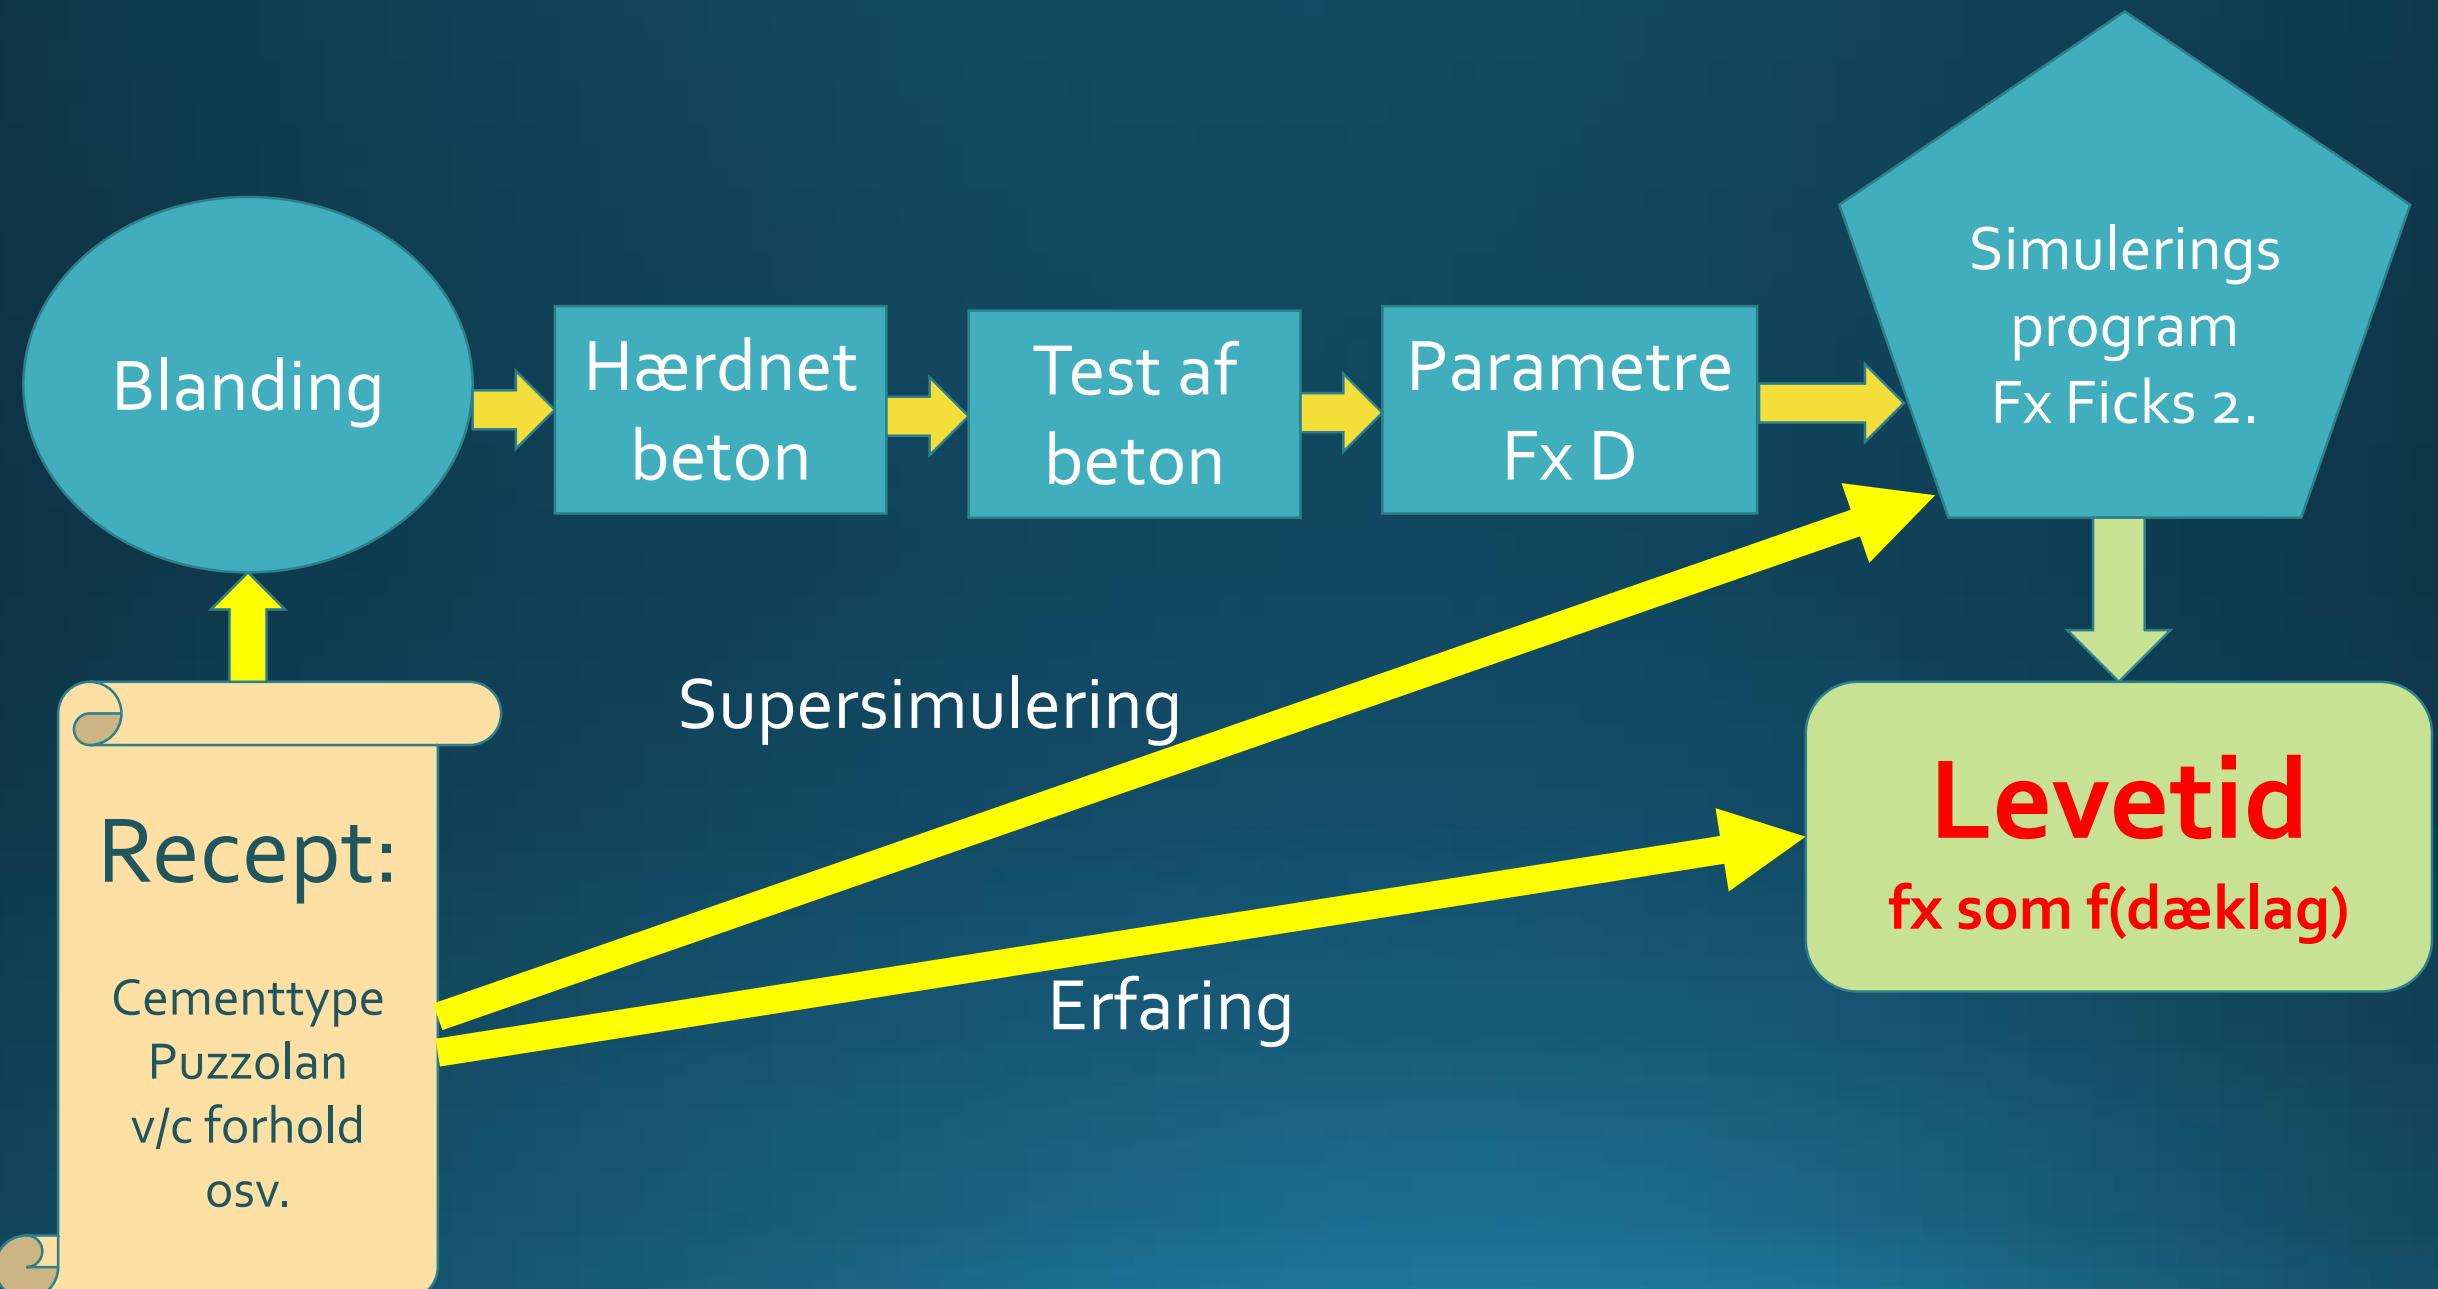

³ Values for minimum cover in EN1992-1-1 given as "base case" given for illustration only

Revner?

Hvad sker der?

- Danske delegater i WG 01:
 - Christian Munch-Petersen, Emcon
 - Jens Mejer Frederiksen, Alectia
- Første møde den 14. december 2015 i Berlin
- Vi har brug for en dansk følgegruppe!
